

COME OUT FROM UNDER THAT ROCK!

ATTENTION ALL ELECTRONIC ENTHUSIASTS

Jaycar has been trying to recruit new staff for our expanding empire with only limited success. We have been advertising in all the usual places but **we need more staff!**

- If you work in this industry (say for a competitor of ours) and are bored with your job - **call us!**
- If you have left school and have found that TAFE/UNI is not for you now (but may be later), why not try us for a couple of years - **call us!**
- If you are just a reader of Silicon Chip and not necessarily in the industry but are interested - **call us!**

Jaycar prides itself on its first class, motivated technical staff. We pay well, have great work conditions (with a Staff Purchase Scheme so good you will die) and a quick path to Store Manager and the BIG BUCKS. No age barriers either!!

So call us on (02) 9741 8555 or email jobs@jaycar.com.au

What have you got to lose?

We will train you, to TAFE accreditation, to become a highly effective communicator with loads of self-confidence which will stand you out from the crowd for life.

And we guarantee you will have FUN! - CALL US!!

Jaycar Electronics Head Office
